PROFESSIONAL SUMMARY

Results-driven **Android Developer** with **2+ years** of experience building **secure, scalable**, high-performance **mobile applications** using **Kotlin, Java**, and **Jetpack** libraries. Experienced across the full **app development lifecycle (SDLC)** — requirements analysis, **architecture**, **testing**, **deployment**, and **incident management**. Skilled in **MVVM**, **CI/CD**, and **Agile/Scrum** with a strong record of **cross-functional collaboration**, **code quality**, and **secure coding practices**. Improved app performance by 40% and deployment speed by 30%.

SKILLS

- **Languages & Tools:** Kotlin, Java, XML, JSON, SQL, Android SDK, Jetpack, Android Studio, Gradle, Git.
- **Frameworks & APIs:** Jetpack Compose, Coroutines, Flow, RxJava, Room, Retrofit, Firebase (Firestore, FCM, Auth), RESTful APIs.
- **Security & Compliance:** OAuth 2.0, Android Keystore, Secure Coding Practices, Data-at-Rest & In-Transit Protection, SDLC.
- **Engineering Practices:** MVVM, CI/CD, Agile/Scrum, Unit Testing (Espresso, JUnit), Code Review, Technical Documentation, Incident Management.
- **Collaboration:** Cross-functional teamwork, peer mentorship, risk identification & escalation, user-centered design.

PROFESSIONAL EXPERIENCE

Mobile Software Engineer – Android

May 2021 – April 2023

IT Path Solutions Pvt. Ltd.

- Engineered **CI/CD pipelines** using **Git** and **Android Studio**, accelerating deployments by 30% and elevating **code quality** through modular **MVVM architecture** and rigorous **peer code reviews** — supporting on-time, on-budget delivery.
- Led **technical walkthroughs** and **code reviews** for a team of 6 developers, coaching members and fostering a culture of continuous learning and **innovation**.
- Produced detailed **technical documentation** and delivered accurate scope/cost estimates across 15+ development tasks, improving project planning precision by 20% in compliance with **SDLC standards**.
- Analyzed **technical requirements** to recommend pragmatic, **performance-focused Android** solutions aligned with application goals and **enterprise standards**.
- Participated in **quality management reviews** of designs, prototypes, and requirements to ensure deliverables met specifications before release.

Android Application Development Intern

January 2018 – May 2019

Silverwing Technologies Pvt. Ltd.

- Designed and implemented **secure, scalable Android** solutions using **Firebase** and real-time sensor integrations within **Agile** sprint cycles, reducing development time by 30%.
- Eliminated 95% of pre-release defects through comprehensive **manual and automated testing** using **Espresso** and **JUnit**.
- Boosted user engagement by 30% through accessible, intuitive interfaces built to **Android Material Design** guidelines.
- Identified and escalated **technical risks** and lessons learned to ensure alignment with **secure coding practices** and performance goals.

PROJECT EXPERIENCE

ENTR GROUP – Club & Event Management App

(Live on Google Play Store — [View App](#))

- Architected and deployed a **secure, real-time Android** app from concept to production, achieving 40% increase in user retention and 500+ downloads in the first 2 months — demonstrating full **app lifecycle** ownership.
- Integrated 30+ **Confluence** documentation links with **Jira** tickets, improving cross-team traceability and reducing onboarding time by 25%.
- Applied **MVVM architecture** and modular design patterns to ensure **scalability, maintainability**, and performance.

SmartCart – Local Inventory & Customer Manager

(Retail Operations Android App)

- Developed an inventory and customer management app using **Room/SQLiteOpenHelper** for **local persistence** — achieving 35% improvement in query performance on mid-tier devices.
- Implemented **Agile Scrum** practices with **MVVM architecture**, enabling rapid feature iteration and long-term **maintainability**.

EDUCATION

Post Graduate Certificate, Mobile Application Development

May 2023 – August 2024

Conestoga Institute of Technology, Kitchener, Ontario

Bachelor of Engineering, Computer Science

May 2015 – August 2019

Gujarat Technological University
